## RING SIGNALER ACCESSORIES

### Light Signaler

#### SONIC ALERT SA201

Alerts you by flashing any lamp that is plugged into its Plug-outlet.

#### SONIC BLINK BL300

This built-in high intensity strobe light projects 360° when flashing to eliminate blind spots. It's perfect for places where a lamp is normally not used.

*Included Sonic Ring Elite TR75VR*

#### Serene CA-CX, BS-100

Cell phone sensor and bed shaker for Clarity Sempre.

### Sound Signaler

#### SERENE RF-105 LOUD RINGER

This Loud Ringer and Flasher alerts you that your telephone is ringing with a super loud adjustable volume.

### Vibrating Signaler

#### AMPLICOM PT601

This wireless wrist receiver works ONLY with the Amplicom PowerTel corded and cordless amplified phones (720 and 780). It vibrates when there's an incoming call, answers phone in speakerphone mode at a press of a button (for 780), includes an emergency button to dial certain numbers and splash (water) proof.

## CAPTIONED PHONES

Captioned phones allow users to listen to the caller through the amplified handset and read the written captions in the LCD window.

### CAPTEL

**840**—requires standard analog telephone line(s) (landline)

**840i**—requires telephone service AND high-speed internet

**880i FOR LOW VISION**—requires telephone service AND high-speed internet; extremely large, 10" caption window

**2400i**—Touch Screen; requires telephone service AND high-speed internet

- Amplification up to 40dB with volume boost
